SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled *ababy47.jpg* is classified as:
Unrestricted.

The computer image file contains one colour photographic image of an apparently naked girl posing with a towel wrapped around the front of her body.

The image is considered to be relatively innocuous. This is because the nudity is very limited, the girl's pose is not sexually provocative and the image does not have any overt sexual or salacious elements.

The Classification Office finds that the publication does not deal with nudity, or any other matters, in such a manner that would make its unrestricted availability likely to be injurious to the public good.
